FUTURE FOCUS

STUDY HIGHER

GET CURIOUS:
Health and Sports Sciences

Thursday 12th November 2026, 09.30 - 14.00
Buckinghamshire New University

WHO IS THE EVENT FOR?

Study Higher's latest Future Focus event is a university campus visit for **young people in Years 9 and 10 from Armed Forces families.** This engaging event will be themed around healthcare and sports sciences, giving young people an insight into different education and career pathways in these fields.

HEALTH AND SPORTS SCIENCES

Health and sports sciences cover many subject areas and careers. Examples include:

- Nursing
- Paramedic science
- Occupational health
- Human performance
- Sports therapy
- Nutrition
- And more!

WHAT WILL STUDENTS DO AT THE EVENT?

Students will take part in **interactive workshops** to explore different areas within healthcare and sports sciences. **Student Ambassadors** will be with us throughout the day to give students an insight into **university life**. The day will finish with **speed-interviewing**, where the young people will have a chance to chat to professionals and students whose careers and studies are related to health and sports sciences. Study Higher is finalising the schedule and will share it in advance of the event.

The event is FREE. Lunch and transport included!

SIGNING UP

Students and parents/carers can contact their school to sign up. Schools can sign up via the online form sent via email.
